SUMMARY

Experienced Full-Stack Developer specializing in the creation of cutting-edge web applications primarily leveraging JavaScript/TypeScript. Proficient in a diverse tech stack, including React, Spring Boot, AWS, Node.js, Express, MongoDB, MySQL, CodeCommit, and Git/GitHub.

Passionate about solving complex problems through coding, I adhere to industry best practices to ensure optimal solutions for each unique challenge. Committed to continuous learning, I thrive on exploring new frameworks, languages, and skills to fuel both personal growth and business-related goals. As a dedicated professional, I bring a dynamic approach to software development, staying ahead of industry trends and embracing innovation to deliver high-quality results.

EXPERIENCE

Full Stack Developer

Ensolvers - Argentina, Remote   **Jul 2021 - Jul 2025**

- Supported and maintained multiple projects including Nue.Life, Ticketon, and Hyros/Htalk as a Full Stack Developer.
- Efficient collaboration with multidisciplinary teams on projects such as Nue.Life, Ticketon and Hyros/Htalk, demonstrating strong teamwork skills.
- Developed and successfully implemented REST APIs using Java and Spring Boot, resulting in improved efficiency and responsiveness of the application.
- Implemented and enhanced User Interfaces designs using React, TypeScript, and Material UI.
- Willingness to learn new technologies, evidenced in the development and implementation of APIs using Java/Spring Boot in recent projects.
